Matching & Selection BSc CSE Study year 2023 - 2024

Dear David,

Welcome! How exciting that you are interested in studying Computer Science & Engineering (CSE) at TU Delft. We hope that the Matching & Selection (M&S) procedure will be a good experience for you and that it helps you find out whether (CSE) at the TU Delft is the right study for you.

We wish you good luck!

You are receiving this email because you successfully registered for CSE in the Dutch national application system Studielink. Please note that receiving this email and participating in the Matching & Selection procedure does not imply that you have met all the admission requirements for the CSE programme (the admission requirements are stated here for VWO candidates and here for international candidates). The checking of admission requirements is a separate process, which is handled by our colleagues of the Central Admissions Office. Admission requirements will be checked during the course of the Matching & Selection procedure.

Content of this email

1. Communication

2. CSE Track Choice
3. Overview of the Matching & Selection procedure

4. Online Student Experience (OSE)

5. CST Preparation Lecture
6. Extra time CST

7. Team Challenge

1. Communication

All communication regarding the Matching & Selection procedure for the BSc CSE 2023-2024 will be sent to the email address you used in Studielink. Whenever you wish to communicate with us by email (to selection-bsc-cse@tudelft.nl), always do so from your Studielink email address. Please make sure to include your **student number** and **full name** in any correspondence.

We have registered the following details:
Full name: David Wicker
Student number: 5903858
Studielink email address: davidwickerhf@gmail.com

Emails from M&S Team
During the M&S procedure, emails will be sent from selection-bsc-cse@tudelft.nl. Make sure that you are able to receive emails from this email address. You are personally responsible for checking the messages in your inbox and spam folder during the entire procedure. Read our emails carefully! During the procedure, emails will include important announcements, reminders and updates.

2. CSE Track Choice

You are registered for the **CSE English Track**.

If by mistake you are registered for the wrong CSE Track, it is still possible to switch tracks. Please send an email to selection-bsc-cse@tudelft.nl as soon as possible, but no later than **Sunday 22 January 23:59 CET**, to let us know you want to switch to the *Bilingual* track. After this deadline, you cannot switch tracks anymore.

Note that for the Bilingual track, the Dutch language is a requirement and the selection test will partly be in Dutch!

3. Overview of the Matching & Selection procedure

The CSE Matching & Selection procedure consists of the following elements:

Matching & Selection Procedure BSc CSE		
1. CSE Matching A. Studying CSE at TU Delft B. Motivation & Perseverance C. Online Student Experience (OSE)	**Matching**	**Email Questionnaire & Matching Platform**
2. Cognitive Skills Tests (CST) A. Mathematics (30%) B. Systematic Reasoning & Logical Thinking (35%) C. Algorithmic & Computational Thinking (35%)	**Selection**	**Selection platform**
3. Teamwork Challenge A. Introduction Team B. Team Challenge C. Teamwork Reflection	**Matching**	**Email Questionnaire & Matching Platform**

The CSE Matching & Selection procedure will start with *Matching* elements, which are meant to help you find out if CSE at the TU Delft is a good study match for you.

Please note that:

- You need to complete all the matching elements in order to proceed in the procedure and receive your ranking number.
- Matching elements will not be graded (and therefore do not influence your place in the ranking).

The first Matching activities that you need to complete are the 'Studying CSE at TU Delft questions, and the 'Motivation & Perseverance questions', which are combined into one questionnaire. **The blue button underneath this paragraph leads you to the questionnaire.**

The questionnaire takes approximately 1 hour to complete. At the end of the questionnaire you will need to select your preferences for the *CST date*, the *Team Challenge Timeslot* and indicate your intentions for the *CST preparation lecture*.

The deadline for completing the questionnaire and indicating your preferences is **Tuesday 24 January 23:59 CET**. If you do not complete the questionnaire before the deadline you will not be able to continue with the M&S procedure.

After you have completed the questionnaire, you will receive an automatic confirmation of your answers and your preferences. Make sure to keep this confirmation email, as it is the proof that you have completed the questionnaire!

If you want to edit your preferences and/or answers in the questionnaire, you can do so until the completion deadline of the questionnaire (24 January), but only with the link in the confirmation email. The link in this email will not work anymore after your first

submission of the questionnaire.

Click on the button below to go to the questionnaire and indicate your preferences.
This is a personal link, do not share it with anyone!

Go to Questionnaire

4. Online Student Experience (OSE)

The last Matching element before the selection test (CST), is the *Online Student Experience (OSE)*. To complete the OSE, you will need to create an account on the Matching platform.

After completing the first questionnaire, you will receive two confirmation emails:

1. The confirmation email of your questionnaire answers and indicated preferences.

2. An email in which you will find more information about the OSE and the instructions on how to create your account for the Matching platform.

On the **Matching platform** you will find all the information you need to proceed with the Matching & Selection procedure. Please always first read the available information on the Matching platform thoroughly. On the matching platform you will also have the opportunity to ask questions on the Discussion Board.

5. CST Preparation Lecture

To prepare for the selection test (CST), we will organize a *CST preparation lecture*, which will cover *some* of the Mathematics and Reasoning & Logic topics you need to know for the CST. The lecture will be held on **Wednesday 8 February from 14:00 to 16:30** at the TU Delft campus.

If you come to campus for the lecture you will have the opportunity to ask questions about the material. We will also livestream the lecture. If you follow the livestream you can only view the lecture, not interact. *More information about the CST Preparation Lecture can be found on the Matching platform.*

6. Extra time CST

In accordance with Dutch law you are entitled to request extra time for the selection tests if you have been diagnosed with a learning disability and/or are experiencing

extenuating circumstances. To request extra time or if you need specific facilities to take the selection tests you need to send an email to selection-bsc-cse@tudelft.nl. Requests need to be supported with documentation in Dutch or English (e.g. a medical or psychological statement) and should be submitted **before Monday 6 February 2023**.

Even if you have already indicated your learning disability in Studielink, please note that you will need to follow this stated procedure to request extra time for the selection tests! As this concerns private information, these requests will be handled by the academic counsellors.

7. Team Challenge

The last part of the Matching and Selection procedure is the Team Challenge. The Team Challenge is a *Matching* element. During the Challenge you will solve a mystery with your team during a timeslot of 1 hour. Every team member receives a different piece of the puzzle, so only by working together you will be able to finish the challenge in time. At the end of the abovementioned questionnaire, you will be asked to indicate your preferred timeslot for the Team Challenge. *More information about the Team Challenge can be found on the Matching platform.*

You are now ready to start!
We wish you good luck with the CSE Matching & Selection procedure!

Kind regards,
Team Matching & Selection BSc CSE TU Delft

In accordance with the GDPR we will keep you informed about general matters related to the Matching & Selection procedure through emails such as these and via the Matching platform. Personalised information, like login details, will be sent directly from selection-bsc-cse@tudelft.nl.
